RE: Child-Friendly UA Website Feedback

The Commission on the Status of Women, in conjunction with Vice Provost for Student Affairs Office, is currently developing a website tentatively called “Child-Friendly UA.” This comprehensive website will serve as a one-stop resource for students, staff, faculty, and visitors who have children or may be bringing children ages 1-17 onto campus.

The site will include the following areas:

- Financial Resources
- Child-Friendly Activities at the University of Arizona
- Campus Policies
- Child-Friendly Campus Map
- Child Care
- Campus Organizations
- Tucson/Community Resources

The Family Care Workgroup of CSW has already put together a lengthy list of existing campus resources (for each of the categories above) that will be linked to on this site. In order to be thorough, we are looking to the University community for additional ideas of what should be included throughout this site so that it is truly representative of all activities, programs, supports, and resources that the University of Arizona provides for parents with children on campus.

If your department offers any programs or services specifically targeted toward children or you just know a great resource on campus that we should consider including, please email Ray Gasser, Chair of the Family Care Workgroup, at gasser@life.arizona.edu or call 626-3047.

Thank you.
