

Calling all Women in STEM (Science, Technology, Engineering and Mathematics) Advocates!

Tucson Women in STEM (TWiSTEM) is a new group formed to bring together the many Women in STEM groups on and off of the U of A campus, as well as anyone interested in helping to raising awareness of issues involving Women in STEM.

Everyone is welcome - students, faculty, staff and industry professionals, people of all gender identities. Join us for informal discussion and debate about issues affecting women in STEM, as well as networking and outreach opportunities.

Planned Events:

- 1) Monthly lunch discussions on a topic of interest to Women in STEM. This semester's discussions will be on Mondays, September 9, October 14, November 4 and December 9 from 12-1pm in the University of Arizona Student Union Catalina Room. The first discussion topic is: "Why are there more women in the biological sciences than in other STEM fields?"
- 2) Monthly networking happy hour. The first will be held on September 12th at 5:30pm at the Auld Dubliner.
- 3) A panel discussion on how best to retain women in STEM (slated for Spring, 2014)
- 4) Joint outreach events

If you're interested in joining the group or hearing about our events, please send an e-mail to TucsonWiSTEM@gmail.com to be added to our listserv! Please also feel free to stop by one of our events.

On behalf of the TWiSTEM board,
Kate Follette
